VACCINATIONS? ASSESSING THE RISKS AND BENEFITS

In this two hour seminar, presented at the Skirball Cultural Center in Los Angeles, California in 2006, Dr. Gordon reviews and explains the current research and protocols that have impacted our national immunological philosophy. He discusses the personal and public health issues surrounding vaccinations - their risks, benefits and how to assess an appropriate course for your particular family. This video empowers parents to make the best possible healthcare decisions.

Table of Contents

Contents Overview	time stamp
Dr. Jay Gordon Background	:48
Introduction by Dr. Gordon	2:42
Origination of Chicken Pox Vaccine	9:17
Shingles	12:05
Immune System 101	17:37
AAP Vaccination and Immunization Schedule	22:49
Strengthening the Immune System	43:10
The Case for Vaccinations	55:40
Dr. Gordon and the Media	57:29
Causes of Vaccine Preventable Deaths Worldwide	58:59
Relevant Vaccines	1:03:25
Autism	1:13:05
Exemptions from Vaccinations	1:28:46
Dr. Gordon's Vaccination Philosophy Summary	1:32:22
Photographs of Vaccine Preventable Illnesses	1:49:36
ADHD Drugs	1:52:36
